Trends and Challenges of Female Engineers in Logistics and Traffic

September 28, 2023

Engineering Academy of Serbia, Kneza Miloša 9, Belgrade, Republic of Serbia

SECOND CALL

We invite you to the International Conference "Trends and Challenges of Female Engineers in Logistics and Traffic" organized by the Engineering Academy of Serbia in cooperation with the Association of Women in Logistics and under the auspices of the Ministry of Science, Technological Development and Innovation of the Republic of Serbia. Co-organizers of the conference are the Union of Engineers and Technicians of Serbia and the Equal Opportunities Association.

GOAL OF THE CONFERENCE

The conference aims to point out the state, trends and challenges of female engineers in the field of logistics and traffic in achieving competitiveness, sustainable development and gender equality in the conditions of dynamic changes in the economic and social environment, market and user requirements. Global market trends require adequate planning of sustainable logistics and traffic processes and systems in order to perform successful business strategies and achieve sustainable development goals. The expected results of the conference are guidelines for improving logistics and traffic in accordance with environmental trends, integrating new technologies, circular economy, principles of sustainability and gender equality in all levels of planning, designing and managing activities, processes and systems in the fields of logistics and traffic.

IMPORTANT DATES

- 11.09.2023.** Deadline for sending the extended abstract
- 15.09.2023. Notification in case of necessary correction
- 21.09.2023. Work program of the conference
- 26.09.2023. Deadline for sending the presentation
- 28.09.2023.** Conference

OFFICIAL LANGUAGES OF THE CONFERENCE

English, Serbian and regional languages

THE VENUE

Engineers center „Nikola Tesla“, Kneza Miloša 9/III, Belgrade, Republic of Serbia
